CLEANSING & PURIFICATION

A fragrance for cleansing and purification. This spray clears old, resistant energy and dissolves negative patterns of behaviour and thoughts, rendering them obsolete. It energises the aura or a chosen room space, filling it with a protective, purifying gold and white light.

A lovely fragrance for healers and light workers, keeping their working sanctuary energised, protected and spiritually vitalised. Can also be used for cleansing and purifying spiritual tools such as crystals, divination cards etc.

MEDITATION

A fragrance for use in Meditation, creating a Sacred Space or Temple of Peace. It helps to calm the mind and body, so accessing the higher levels of consciousness which are our divine heritage. Meditation assists in rediscovering the inner resources of joy and peace, and in following our quest for the ultimate goal of spiritual enlightenment. A lovely fragrance for self-use and in groups, or to create a sacred space by spraying the four corners of a room. The energy vibration of this fragrance is very powerful; please ensure you close and seal your energy field before resuming normal activities.

AKASHIC RECORD CONNECTION

A fragrance to aid connection with our Akashic Record, or Divine Blueprint, for this lifetime. It assists in raising awareness beyond our Earthbound existence, so opening the vaults of our soul, contracts, lessons, gifts etc. It gives us a glimpse into the journey and path of our Soul through the Universe so we can exercise grace and intent to release any past traumas and energetic imprints.

A lovely fragrance for healers and light workers to enhance spiritual development. The energy vibration of this fragrance is very powerful; please ensure you close and ground your energy field before resuming normal activities.
