

The Archangel Aura Fragrances are a unique range of beautifully presented essences developed by Angela Waudby, an experienced complimentary therapist. They were lovingly created through channelled guidance from her Guardian Angel and Spirit Guides, and can be used as high vibrational tools for spiritual growth.

The nine fragrances are a blend of healing and high frequency energies from the Angelic realms, plus from the Divas of the Mineral and Plant Kingdoms. They contain angelic blessings, the highest quality essential oils, flower essences and gem elixirs. Each one serves to uniquely harmonize and unify our energetic being, allowing us to heal and transform our lives in a gentle manner whilst assisting with spiritual development.

The Archangel Aura Fragrances can be used by:

- 1 Personal selection by aroma, colours, connection and visualization with the essence and/or energy contained within the fragrance bottle.
- 2 A lightworker, medium or therapist to clear, energise and complement the healing treatment or reading.
- 3 Individuals to use as a room fragrance to clear, enhance and lift the energies within that space.

Directions for use:

Shake the bottle gently. Spray around the aura, body or into room space. Do not spray into the eyes. Not to be taken internally. Keep away from young children. Do not use if pregnant.

Always consult a GP if you have a medical condition and are unsure of using this product. Keep in a cool place.

Available in 30ml or 50ml
